## WHY JOIN THE ACA?

### LEGISLATION

We work to ensure Arkansas beef producers can continue their way of life and provide for their families without burdensome regulations. We advocate on Capitol Hill for common sense legislation. The ACA also fights against red tape and regulations that endanger our way of life.

### EDUCATION

Through networking, field days, and other events, the ACA helps producers learn how to more effectively and more efficiently raise high quality cattle in the state of Arkansas. We provide our members with information and connections to be profitable while producing a safe food supply for our state and nation.

### ADVOCACY

We provide our consumers with facts about beef cattle farms and address misconceptions surrounding our industry. Beef producers are incorporating technological advancements to raise beef while protecting our natural resources. We also encourage the consumption of beef as part of a healthy lifestyle.

### DEVELOPMENT

We're dedicated to leading the beef industry in Arkansas forward towards continued improvement. Through work with young cattlemen, youth and legislation. We represent over 8,600 members that are striving to do the same. Why not be one of them? Join the ACA as an associate member today!
